

# ABSOLUTE ENGINEERING

Aspiration for the  
Better Engineering

project.info.ae@gmail.com

## About us

**Absolute Engineering** is a Consulting & Service Providing firm that always create an Win-Win Environment through the fulfillment of your Electro-Mechanical Requirements in all Sectors – Garments & Textile, Pharmaceuticals, Power Plant, Food Factory, Commercial & Industrial etc.

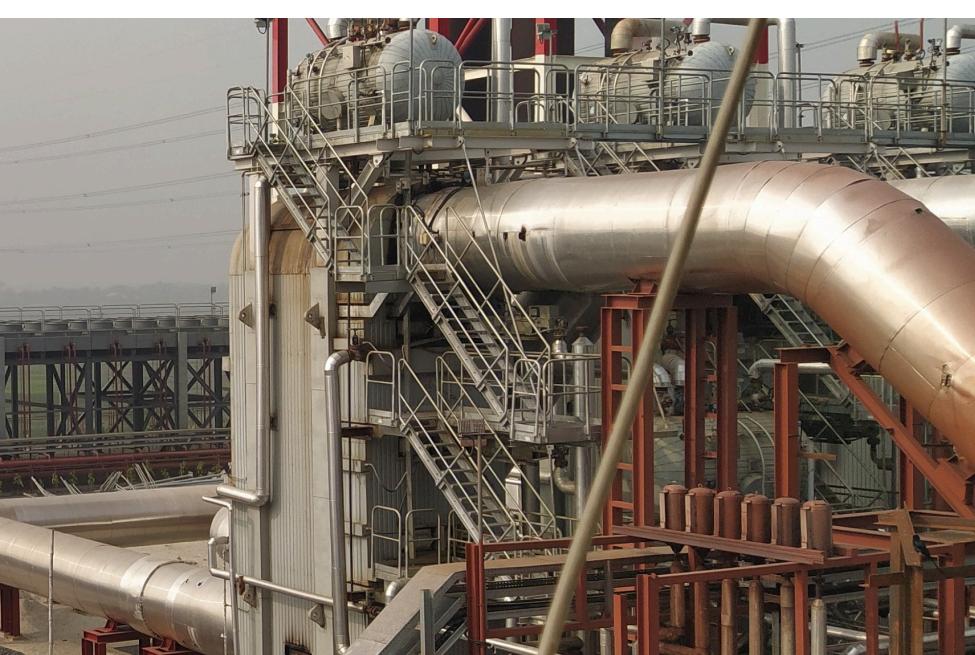

It has been established by Professional Engineers who are caring of to provide the suitable solutions for solving the Customer Demands.

## Vision & Mission

Delivering the State of Art Design in Electro Mechanical Domain for Bangladesh.

Assure to Provide Innovative, Responsive, Compliant & Environmental friendly Electrical and Mechanical Engineering Services – especially Energy Part like Utility Lines, Steam Line, Water Lines, Gas & Electricity Line.

# SERVICES

## SYSTEM DESIGN

- Details Steam Engineering.
- Details Utility Piping Design.
- Waste Heat Recovery from Gas Generator & Steam Boiler.
- Heating Ventilation & Air Conditioning (HVAC)
- Piping 3D Modeling.
- As build Drawing for new boiler approval or for RSC requirements.

## AUDIT

- Details Steam Audit
- Boiler Performance Audit.

# WE ARE BEST FOR STEAM MANAGEMENT

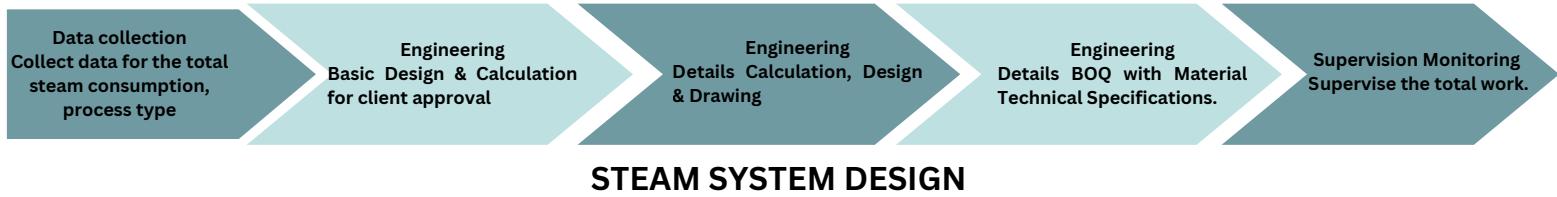

Steam is one of the most sought after energy sources for any industry. The importance of details steam system design for energy conservation is immeasurable.

We have an experienced team of ENGINEERS.

## SCOPE OF DELIVERABLES

- A. DETAILS STEAM SYSTEM DESIGN.
- B. DETAILS STEAM AUDIT.

## STEAM AUDIT

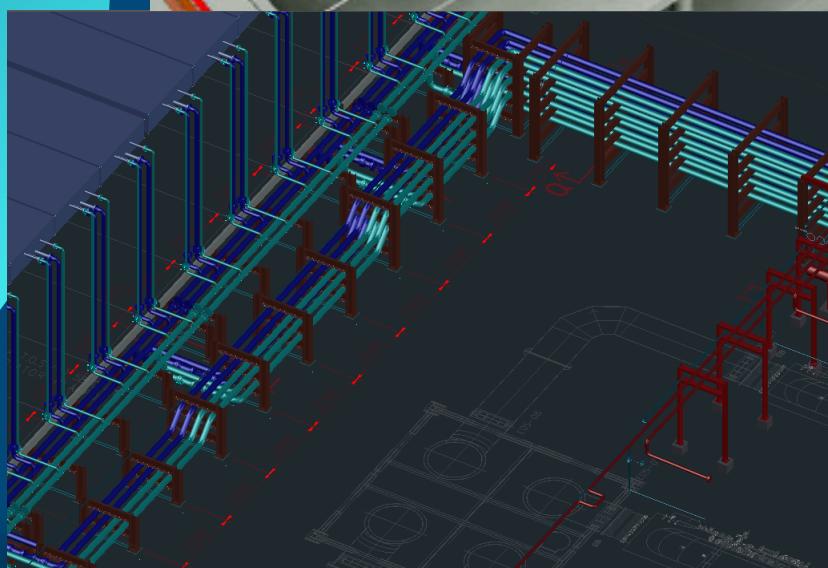

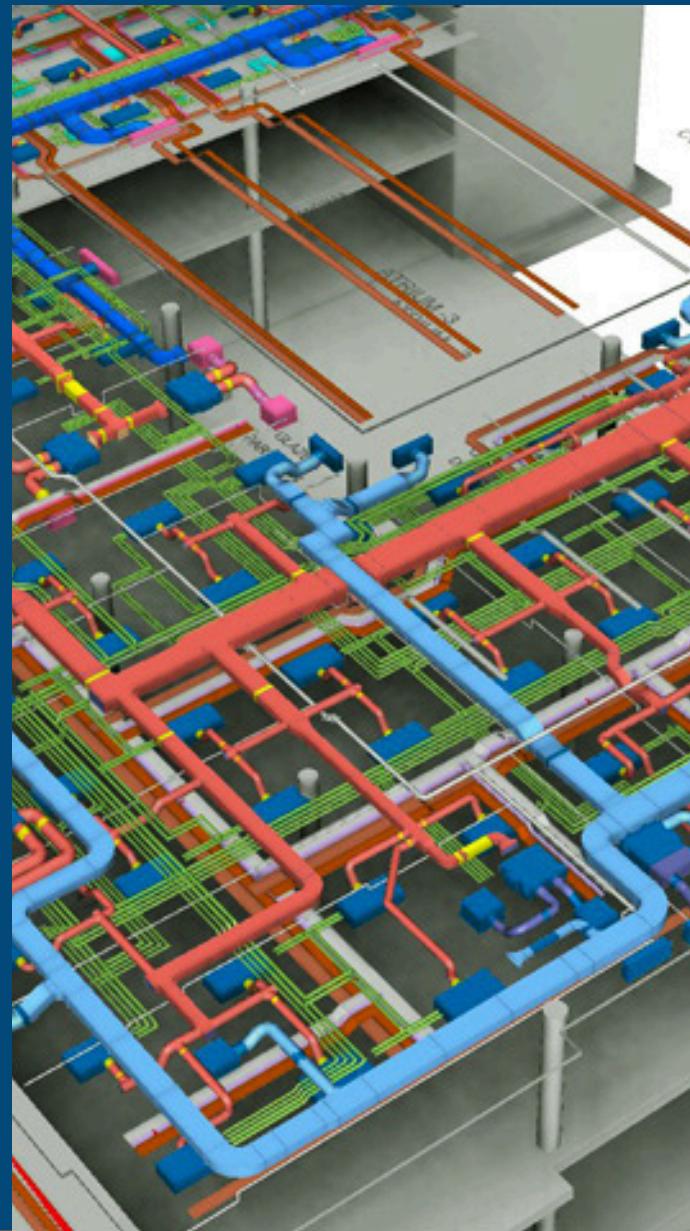

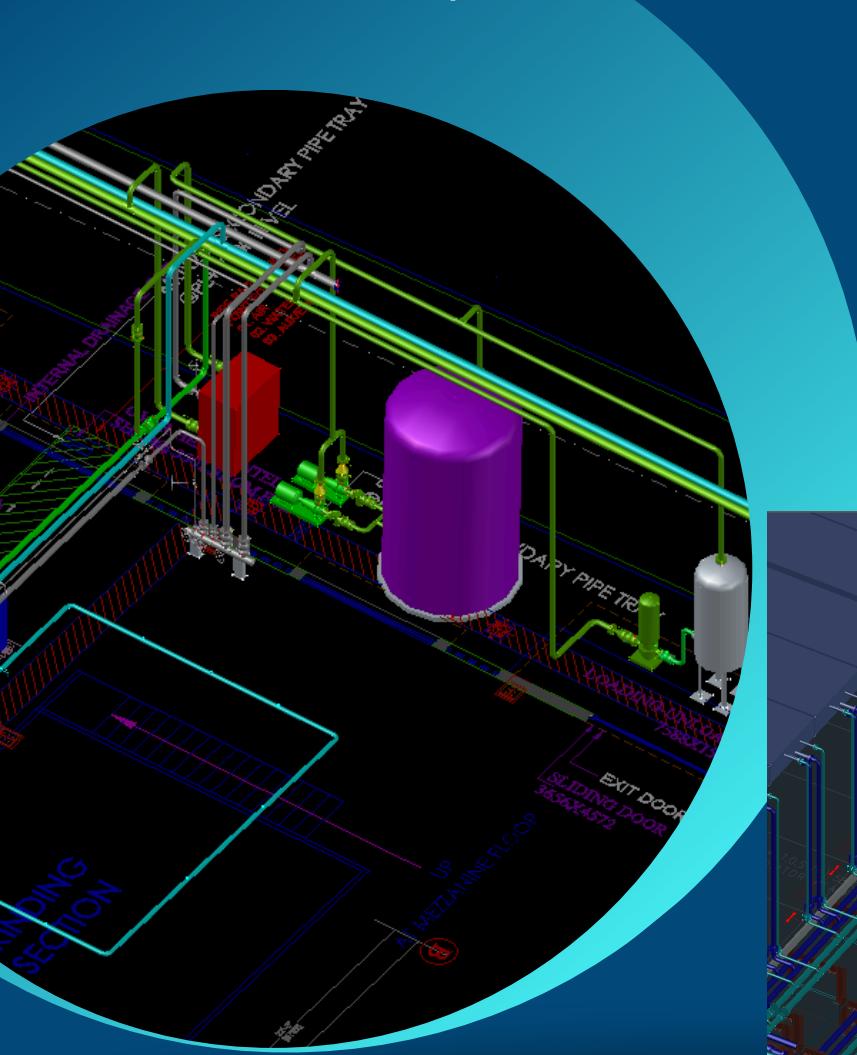

ABSOLUTE ENGINEERING

# PIPING 3D MODELING

We have well trained team for 3D Modeling

- Accurate Representation
- Clash Detection and Resolution
- Improved Collaboration
- Efficient Design Iterations
- Cost Savings
- Enhanced Visualization
- Improved Safety
- Maintenance Planning
- Regulatory Compliance
- Time Efficiency

# HEATING, VENTILATION & AIR CONDITIONING SYSTEM FOR INDUSTRIAL & COMMERCIAL BUILDINGS.

## VENTILATION

VENTILATION is most important for human comfort.

We have a well-organized team with 3 to 15 years of practical experience in various fields including Design, commissioning and monitoring of VENTILATION SYSTEM in textile, pharmaceutical, power plants.

## AIR CONDITIONING SYSTEM

Details Design & Installation for any space air conditioning system according to ASHRAE GUIDE LINE
